Minty Fresh - when you brush your teeth, do you ...

- A. Leave the tap running?
- B. Turn the tap on and off at the beginning and end of brushing?
- C. Use a cup or mug?

Water shortages will be one result of climate change, don't let it run away!

Hungry Habits - how is your lunch packed?

- A. You use prepacked sandwiches and drinks and throw them away each day?
- B. You take a lunchbox but love to buy a can of drink after school?
- C. Your drink is from a re-used bottle and you recycle the sandwich foil?

You can't re-use cans but you can recycle them.

And again... could you recycle more at home?

- A. You throw away empty cans or bottles – it's tidier and quicker?
- B. You leave empties around the house hoping someone will put them in the recycling bins or even take it to a public recycling centre?
- C. You regularly nag your family and friends to recycle everything you can – particularly plastic and glass - and never use a rubbish bin?

Most councils offer recycling services to every household and all have public recycling binswhat about recycling old computer games, DVDs or clothes? You could even organise a swap shop with friends and save money!

Walk the Talk - could you walk or cycle instead of getting a lift?

Personal car travel produces 13 per cent of the UK's total greenhouse gas emission. Buy some whacky wellies, put on your coat and walk whatever the weather. For longer trips, why not lift-share?

Foul Flying - how green is your holiday?
