

The Bible will help you discover that he wants the very best for us – to be the people he created us to be – and is eager to get us back on the right track

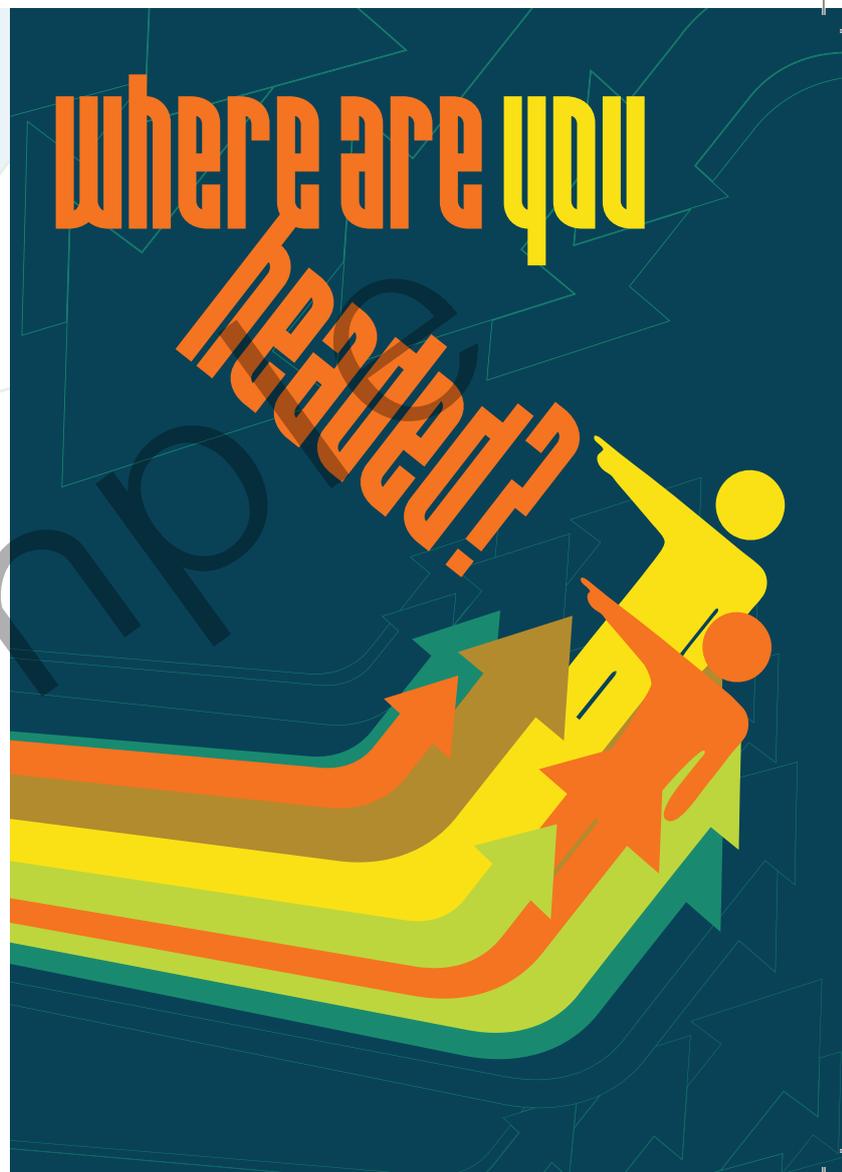

Followers of Jesus have found that with him, they're no longer on the road to nowhere. Ask one of them to tell you about the way they've chosen, how he's helped them turn their lives around and given them a purpose.

They know where they're heading.

How about **you?**

where are you headed

Not to work or the shops or on holiday or anything.

Where are you going in life?

Perhaps you're aiming for a promotion. To find your true love. A bigger house in a better area. A decent future for the kids. To go on that round the world cruise you've promised yourself when you retire?

But that's all in the future. Right now though, life's pretty good most of the time isn't it? You've got four wheels (OK the car's not a Ferrari, but it gets you from A to B), enough food in the fridge to keep you going for at least a fortnight probably and there's always the prospect of a few jars at the weekend.

Can't complain. Not really.

No. But where are you headed – and whose route map are you following?

Maybe you've got your own personal sat-nav and that's done you fine so far (provided you don't hit too many bumps on the road ahead!).

But if you've started to look around you and are not all that taken with the view, or feel let down or lost and haven't a clue where you are supposed to be going in life, it's reassuring to know that there is hope. God has a plan for each one of us and promises to accompany us on our journey if we'll let him.
