EASTER
JOY

*celebrate
with us*

Take a look around for a minute.

You don't have to be an Alan Titchmarsh to notice that winter has gone and spring is here at long last. The daffs are out and, before you know it, the trees, bushes and garden borders will be bursting out all over.

Easter, too, is bursting with the promise of new life and the offer of a bright hope for the future.

The Bible tells us that those who choose to follow Jesus Christ have his light to steer them, even through the gloomiest of winter days.

That's the joyful message of Easter. Join us as we celebrate.
